

# TECHNICAL DATA

## HT 78

### Hot Tank Cleaner

#### Product Description and Purpose

HT 78 is an alkaline rust stripper for removing rust and paint from iron and steel. HT 78 is highly caustic with sequestrants for dissolving rust and accelerating stripping. It is safer to handle than acid compounds, no acid fumes, no need for lined soaker tanks, although HT 78 may attack weak spots in the equipment. It has powerful penetration and immediate wetting action takes off oxidized metal and makes it clean.

#### Features/Benefits

Biodegradable  
Clean Rinsing  
Excellent Stability

#### General Usage Directions

In Steel Tanks: Use 1 to 3 pounds per gallon at a boil for rust stripping

Paint Stripping: Use 1 to 2 pounds per gallon of water at a boil. The time and concentration of rust/paint stripping will depend on the rust and paint.

#### Physical Properties

Form	Powder
Color	Off-White/ Tan
Odor	Mild
pH 1% (Aq.)	13-14
Solubility	Rapid
Flash Point	None

#### Caution

Keep out of reach of children. Keep container tightly closed when not in use. Protect from freezing. For industrial use only. Read Safety Data Sheets for more information.
