METAL CONDITIONER F-20 SUPER ALUMINUM CLEANER & BRIGHTENER

Product Description and Purpose

METAL CONDITIONER F-20 is a concentrated, liquid, heavy duty, fast acting aluminum trailer cleaner and brightener specifically formulated to brighten oxidized aluminum trailers. A potent blend of strong mineral acids, wetting agents emulsifiers, and "butyl" solvents for extra grease-cutting power.

Specifically designed for cleaning both over-the-road and delivery trailers. May also be used to clean and brighten tanks and aluminum siding on industrial buildings. **NOTE: DO NOT** use on aircraft or aircraft materials, on anodized or highly-polished metal surfaces (including stainless steel and aluminum), on aluminum or magnesium wheels or wheel covers, painted surfaces, plastic center caps, or allow runoff to contact such surfaces, as irreversible damage or dulling may occur. Keep product off glass, fiberglass, and ceramic surfaces. Should product accidentally contact any of these surfaces, flush immediately with water. Repeated use of the product can cause degradation of metal equipment and damage to concrete and metal surfaces.

Features/Benefits

Cleans Without Brushing	Reduces labor by removing the heaviest deposits
Brightens Aluminum	Uniformly brightens aluminum surfaces
Fast Action	Reduces cleaning time
Non-Streaking	Will not streak or stain surfaces
Concentrated	May be diluted up to 1:50 for economical use

Surfaces Applicable

All Washable Fabrics.

General Usage Directions

May be diluted up to 1:50 for economical use.

NOTE: Dilutions are approximate and may be varied if required for desired results.
